

Tuck in or wake up your Pokémon!

In these instructions, the term "Game Card" refers to whichever Game Card you have: *Pokémon Black*, *Pokémon White*, *Pokémon Black 2*, or *Pokémon White 2*. *Pokémon Black Version 2* and *Pokémon White Version 2* will be available this fall!

To play in the Pokémon Global Link (PGL), you need to tuck in your Pokémon using Game Sync in your Game Card.

After playing in the PGL, wake up your Pokémon using Game Sync to bring Pokémon or items from the Pokémon Dream World back to your Game Card, as well as any customizations you've chosen.

Tuck in a Pokémon using Game Sync

1. Tap "ONLINE" on your C-Gear.

2. Tap "GAME SYNC."

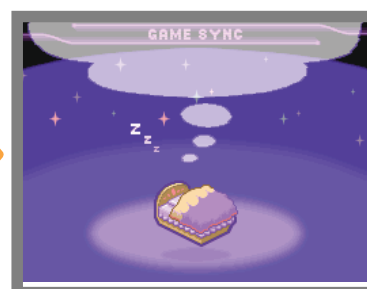

3. When the message "Connect to Nintendo Wi-Fi Connection?" appears, select "Yes."

4. Choose a Pokémon to tuck in from your PC Boxes.

Some screenshots are from *Pokémon Black 2* or *Pokémon White 2*, but the operation is the same in *Pokémon Black* and *Pokémon White*.

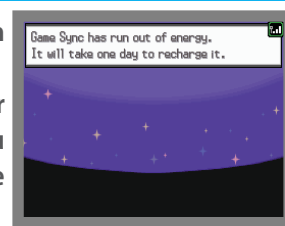

5. Your Pokémon fell asleep!

If the message "Game Sync has run out of energy" appears

You can tuck in a Pokémon only once per day. Please try again tomorrow.

If you play your Game Card on a different Nintendo DS system, or change the time or calendar settings of your Nintendo DS system, you cannot use Game Sync for 20 hours. Please check the PGL support page for details.

Check out how to wake up your Pokémon!

Wake up your Pokémon using Game Sync

To wake up your Pokémon, you first need to prepare to wake it up in the PGL.

Prepare to wake up your Pokémon in the PGL!

There are two ways you can prepare to wake up your Pokémon.

When you leave the Pokémon Dream World

Click "Exit and prepare to wake up" as shown above when you finish playing in the Pokémon Dream World.

If you select "Exit and prepare to wake up," you cannot play in the Pokémon Dream World again until your next access time.

At the PGL home page

Click "Wake up!"

Before preparing to wake up your Pokémon, check what you want to update in your Game Card!

Check the Friend Board in your home in the Pokémon Dream World to see the Pokémon you'll take to your Game Card.

Check the Treasure Chest in your home in the Pokémon Dream World, and select the Berries and other items that you want to take to your Game Card.

Click "Customize" at the PGL home page, and select the C-Gear skin and other customizations you want!

Next, wake up your Pokémon using Game Sync!

Using Game Sync

1. Select "ONLINE" on your C-Gear.

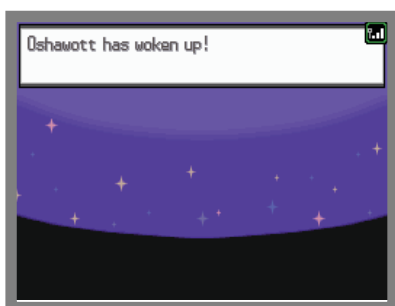

2. Tap "GAME SYNC."

3. When the message "Connect to Nintendo Wi-Fi Connection?" appears, select "Yes."

4. When the message "Is it OK to wake up this Pokémon?" appears, click "YES."

5. Your Pokémon woke up!

That's how to tuck in and wake up your Pokémon. Enjoy the world of the Pokémon Global Link using Game Sync.
